"World Sparrow Day"

20 March 2021

The Berar General Education Society's
SHRI R.L.T. COLLEGE OF SCIENCE, AKOLA

Department of Zoology and IQAC

Celebrating

"World Sparrow Day"

20 March 2021

Zebra Cell, Department of Zoology & IQAC organizing an innovative
virtual competition for U.G. students and inviting the views
on the theme

"Sparrow Conservation: Today's Need".

You can submit your views in about 500 to 1000 words on the given mail id:

drashmijoshi151@gmail.com

Before 20/03/21 till 6:00 pm

All participants register yourself through the google form link given below.

<https://forms.gle/du1KxJ69KmhEfvIA7>

1. Best three views from registered participants will be selected and awarded.
2. The views should be mailed in pdf format having your Name, Class and Name of Institute.
3. The last date of submission is **20/03/21 till 6:00 pm**
4. All the participants will get their certificate of participation in their mail inbox after filling up the feedback form. The **Feedback form link** is <https://forms.gle/WDnedPgPFm5VUsg46> and will open from 20/03/21.

Department of Zoology (Zebra Cell) in collaboration with IQAC of Shri R.L.T. College of Science, Akola celebrated "**World Sparrow Day**" on **20th March 2021**. On the occasion, an innovative virtual competition for U.G. students were conducted by Dr. Rashmi P. Joshi (Sawalkar), Assistant Professor, Department of Zoology under the able guidance of Dr. S.M. Nagrale, Associate Professor, Head, Department of Zoology and IQAC Coordinator, Dr. R. L. Rahatgaonkar. The different views on the theme "**Sparrow Conservation: Today's Need**" were invited by the UG students. About 102 participants were registered for the competition and all the registered students received Certificate of Participation after submitting the Feedback form. Out of 102 registered students, 6 participants were from other university and 3 from other colleges. The jury members selected the best three winners for 1st, 2nd and 3rd prizes and one consolation prize. The participants had given very innovative views for conservation of sparrows. All the faculty members of zoology department worked hard for the success of the event. Principal of the College Dr. V.D. Nanoty appreciated the event and said that, such activities help to create awareness in students for conserving Nature and Wild Life.

The Winners of the Competition are:

1st Winner	Samiksha Sunil Lingayat	BSc II	Shri R.L.T. College of Science, Akola.
2nd Winner	Monika m. Agrawal	BSc III	Shri R.L.T. College of Science, Akola.
3rd Winner	Rajashri V. Kharchewah	BSc III	Shri R.L.T. College of Science, Akola.
Consolation Prize	Vishakha D. Pole	BSc III	SRTMU Nanded

Name of Institute: Shri R. L. T.
college of science, Akola.

My personal observation can say there is decline in population of house sparrows, I can explain, a decade before when I was a kid, in backyard of our house, teoops of sparrow use to visit. We have Java plum tree in our backyard, sparrows use to sit on tree branches and in open space around there, even some of sparrows used to come inside our home. We used to play with them, like when they are sitted we run towards them, a lot of them fly away and we silently sit in coenes and observe tiny chirping birds settling down again this is such a fun. We used to spread rice and other grains so that sparrows can feed and keep vising us. But now whenever I visit my hometown there are only few sparrows in our backyard, not teoops as it were before 10-12 years. sparrow conservation is today's need.

Scientists consider mobile radiation the major culprit for disappearance of sparrows. Birds navigate by sensing the Earth's magnetic field and mobile radiations are known to disturb them and interfere with bird's ability to move around. One of other reason is excessive use of insecticides. Insects are the pest of newborn baby sparrow's

"Sparrow Conservation: Today's Need"

The sparrow is one of the most ubiquitous birds around us and is one of the more familiar winged companions of human beings. It has, over a period of time, evolved with us.

At one time a very common sight, in the past few years, this bird has been on the decline over much of its natural range, both in the urban and rural habitats. The decline of the house sparrow is an indicator of the continuous degradation of the environment. The house sparrow is, in an sense, an ambassador to the common bird species. The hope is that the conservation of the house sparrow and its habitat will in turn help save much of the common biodiversity, which shares the habitat of the house sparrow.

"Sparrow Conservation: Today's Need"

Sparrows are small yet attractive birds. This bird is found all over the world including India. The sparrow is a very humble bird. The sparrow has small wings. Its beak is yellow and the colour of the feet is brown. Its body is light greyish-black. Male sparrow and female sparrow are different in appearance. Sparrow is an omnivorous bird. It eats seed, grain, fruit & insects. Sparrow generally build their nests in the roof of houses, buildings, bridges and hollow of trees. In urban areas, these birds often nest in the houses of humans.

Sparrows are flexible in all climates. Their lifespan is 4 to 7 yrs. These birds usually fly at a speed of about 24 miles per hour. Sparrows mostly like to live in herds. These birds are rarely seen in hill areas. Now a days due to different reasons, number of sparrows are reducing day by day. Gradually this beautiful bird has started disappearing. To spread awareness about Sparrow and its protection, "World Sparrow Day" is celebrated every year on 20 March worldwide.

Being social birds, their primary living accommodation is among humans. But, humans have not been able to maintain the trust these little birds placed on them. And thanks to that, sparrows are now a rarity. This is why we need to celebrate World Sparrow

WORLD SPARROW DAY

- World Sparrow Day is celebrated on 20 March every year in many countries around the world. Every year celebrating is organised according to the theme. The theme for World Sparrow Day is "I Love Sparrows" & is pictured like "I ♥ Sparrows".
- It is a hope that with this theme more people will join several events and campaigns to protect the sparrows.
- We all have some kind of special bond with Sparrows since our childhood.
- Theme I Love Sparrow will remind people the love and bond with Sparrows and encourage them to come forward.
