- ***World Environment Day is celebrated every year on June 5, to remind humans that they are not alone on this planet.***
- ***There is a huge biological ecosystem that exists and human beings survive because of that.***
- ***World Environment Day is observed by United Nations to encourage worldwide awareness and work towards improving the environment.***
- ***Every year responsibility is given to a country to host the event and provide a platform to discuss Sustainable Development Goals.***
- ***Over 150 countries participate each year under the aegis of the United Nations Environment Programme (UNEP).***

“ECOSYSTEM RESTORATION”

Theme for the decade 2021-2030
