

Best Practice No. 2

Title : Publication of Innovation and creativity Magazine

The aim of the Innovative and creativity Magazine is to provide the platform for the students to publish their creative and innovative ideas present in their mind. Objectives - To develop innovative and creative ideas as well as interest for research among the students. To provide small scale industry business ideas. To motivate student to apply for the patent. Methodology –Teachers developed self-employment mind setup of students, taking a step towards Aatmnirbhar Bharat by self creativity and innovations. Many students gave various concept regarding different fields. In view to bring out their creative ideas on the paper which may give rise to small scale industry or business we have started this innovative project of Creativity and Innovation magazine. With this aim we have published our Second issue of our magazine on 21st April, which includes 20 different Innovative ideas from our M.Sc. students.

Outcomes - Students get motivated for creative thinking, which is a first step towards development of research culture among them.

Total 20 innovative ideas are published in this magazine.

Students got knowledge of science behind many concepts. Two patents have been filled by the student and teacher.
