CRITERION III: RESEARCH, INNOVATIONS AND EXTENSION

ध्यावयाची आहे. या दरम्यान आपल्या महाविद्यालयामध्ये परीक्षेकरिता लागणाऱ्या वसुधोल्या, मनुष्यवळ व त्यांना दिले जाणारे मानधन याबाबत CTSE वाडीया महाविद्यालय पुणे यांच्या मार्फत स्वतंत्र पत्र देण्यात येईल. केंद्रातर्फे दिले जाणारे हे प्रशिक्षण विनामूल्य असून समाजातील दुर्बल घटकातील विद्यार्थ्यांसाठी असल्यामुळे अत्यंत कमी शुल्क परीक्षेकरिता घेण्यात आलेले आहे. म्हणून महाविद्यालयाने या परीक्षेसाठी कोणतेही अन्य शुल्क आकारू नये ही विनंती.

एकदरीत सनदी सेवा सारख्या स्पर्धा परीक्षाबाबत महाराष्ट्रात जागृकता कमी असून राज्यातील उमेदवारांचे प्रतिनिधित्व या सेवामध्ये अल्प आहे. हे प्रतिनिधित्व वाढविण्याच्या दृष्टिने तसेच चांगले अधिकार देशाला मिळावेत यासाठी एकत्रित प्रयत्न करणे आवश्यक असून यामध्ये आपले सहकार्य नक्कीच आम्हास मिळत अशी नम्र अपेक्षा बाळगतो.

Issue addressed: Environmental Consciousness

One Day workshop on Eco friendly Ganesha idol Preparation.

Department of Microbiology, Shri RLT College of Science, Akola in collaboration with Department of Social forestry, Nisargakatta and Microbiologist society, India have organised one day workshop on Eco friendly Ganesha idol Preparation on 6th of September 2018. Dr. R.B. Heda president of BGE Society, Akola, Adv. M.G. Mohta Hon. Secretary BGE Society, Dr. V.D. Nanoty Principal, Ms. Namrata Tale Range forest officer, Mr. Amol Sawant and Dr. H.S. Malpani Co Ordinator of event were present in inaugural function.

Organising such event is need of time as, India is country where festivals of all religions are celebrated with great enthusiasm and unity. But due to ever increasing population, few practices in these festivals create burden on environment and contribute to pollution. Ganesha festival in one of the widely celebrated events where Lord Ganesh idols are worshiped for ten days. Most of the time these idols are made by plaster of Paris (POP) which when immersed in rivers, contribute to water pollution and adversely affect water ecosystem. An attempt was made to prepare Ganesha Idols by using Shadu soil, which get dissolved easily in water after immersion. This event not only created environmental awareness but also helped students to engage themselves positively to know their own hidden talents. Around 110 participants prepared beautiful Ganesha Idols of Shadu soil which will contribute to reduce water pollution and develop environmental consciousness. Certificates were distributed to all successful participants. Dr. U.K. Bhalekar, Ms. S. N. Gawande and all teaching and non-teaching staff of college were present for event.

This training is offered by the Spoken Tutorial Project, IIT Bombay, funded by National Mission on Education through ICT, MHRD, Govt., of India.

Spoken Tutorial Project is in following phases: Training & Assessment Test as mention above.

Details of Online Workshop & Training & Assessment Test is as follows:

- After enrolling the name of the students for one of the FOSS, there after one month training through self learning course material (Audio Visual) provided by the Talk To A Teacher project at IIT Bombay. We provide this training material in soft copy to enrolled students and also installed it on few computer systems in computer science laboratory for those students who doesn't have their own computer system (These tutorial are also run able on mobile devices.)
- After one month of self learning training by using computer/mobile system. There is online assessment test conducted by remotely from IIT Bombay, it is a pre-requisite for completed the training and if student scored this test with 40% marks then issue Certificate which are offered by the Spoken Tutorial Project, **IIT Bombay**.
-

In Final Assessment Test as a Free and Open Source Software on C++ which is online remotely conducted by IIT Bombay, **07 students** from B.Sc.III successfully completed this training and issued **Certificates** which are offered by the **Spoken Tutorial Project, IIT Bombay**, which are very valuable in their career point of view.

List of Students Registered also successfully passed the assessment test with above 40 % marks in this test and issued Certificates:

Introduction

Fisheries is a sunrise sector in Indian agriculture, with high potentials for diversification of farming practices, rural and livelihood development, domestic nutritional security, employment generation, export earnings. This sector provides employment opportunity to people from villages, Farmers, and people who are interested in Fish farming. In the present era of food insecurity, aquaculture shows enormous potential to feed not only the ever increasing human population but also the aquaculture products can be utilized as a feed ingredient in the diets of different domesticated animals of high commercial value. The aquaculture sector has become a modern, dynamic industry that produces safe, high valuable and high quality products, and has developed the means to be environmentally sustainable aquaculture is currently the need in India as elsewhere. Fish farming is the raising of specific species of fish in enclosures or special tanks. The fish raised on farms are primarily for food, though the objectives of this aspect of aquaculture include more than increasing the seafood supply. There are employment and economic advantages, as well as the possibility of sustaining species that might be over-fished if not for the controlled environments of fish farms.

Objectives

1. To introduce welfare schemes for upliftment of fishermen community and farmers.
2. To provide guidance, resources and support system.
3. Effective utilization of aquatic and land resources.
4. To promote culture fisheries in the state by utilizing all the available resources to boost fish production.
5. To propagate fish culture to provide avenues of earnings to the uneducated, educated unemployed people and farmers.
6. To develop recreational fisheries as means of earnings.

Day 1 (02-01-2020) Thursday

On first day Inauguration of training programme was held at Shri. R. L. T. College of Science, Akola. This function was held in presence of Adv. Motisihaji Mohta, Hon. Secretary The B. G. E. Society, Akola as inaugurator and chief guest, Shri. Suresh Bharti Assistant Commissioner of Fisheries was President of function in presence of Dr. V. D. Nanoty, Principal Shri. R. L. T. College of Science, Akola, Shri. Vinod Rathod, Fisheries Development officer, Dr. Sudhir Kohchale Coordinator of programme, Dr. Archana Sawarkar Organizing Secretary, Shri. Dipak Wankhade. Dignitaries addressed

the participants and audience this programme was conducted by Dr. Archana Sawarkar and Dr. Sudhir Kohchale proposed vote of thanks.

Technical Session 1

In the first technical session **Ashitosh Jadhao** assistant fisheries development officer delivered his talk on Tilapia farming methods. He explained how tilapia was introduced in India, and benefits of culturing Tilapia as tilapia can be cultured throughout the year and its density is more than other fishes like Rohu, Catla etc. also it can grow at faster rate than rest of the fishes it is monosexual and can reverse its sex. It can tolerate harsh environment conditions and grows faster so beneficial in farming proving good revenue.

Technical Session 2 and 3

Shri. K. S. Badihaveli, Fisheries Development Officer delivered lecture on site **Selection for Aqua culture and Fresh water Pearl farming**, in his talk he elaborated on selecting good site for aqua culture and how water salinity, pH, temperature effects the fish culture, also he explained the effect of topography, soil type on Aquaculture. He emphasized more on ecological, economical, social aspects while selecting the site. In pearl farming he explained collection by hand picking, acclimating and implantation methods. He explained two methods of implantation namely Gonadal Implantation and Muscle implantation, post stocking management and Harvesting techniques.

Technical Session 4

In third technical session **Ashitosh Jadhao** assistant fisheries development officer delivered his lecture on Integrated culture System, where he explained integrated fish farming is one of the best example of mixed farming. It refers to the simultaneous culture of fish of shell fish along with other culture system. The integration of aqua culture with livestock or crop farming provides quality protein food, resource utilization, recycling of farm waste, employment generation and economic development.

Technical Session 5

Dr. Archana Sawarkar, Assistant Professor Department of Zoology delivered her talk on Fresh water Fishes. She explained how fresh water fishes differ physiologically from salt water fishes in several respects like, their gills must be able to diffuse dissolved gases while keeping the salts in the body fluids inside. Their scales reduced water diffusion through the skin therefore the fish that have lost too many scales will die. She included morphological slides of fresh water fishes in her power point presentation.

Day 2 (03-01-2020) Friday

Field Visit to Mahan (IMC breeding and Culture Techniques)

On day second with all participants visited Katepurna Breeding Centre at Mahan, where technical guidance was provided by Shri. Vinod Rathod, Fisheries Development officer. How do I register a patent?

Go to www.ipindia.nic.in - the website of the Indian Patent Office. It will tell you all about how you can apply for a patent.

You need to contact a "patent agent" who is an adult who is trained to "write" your patent application and apply on your behalf to the government. A list of patent agents is provided on the website.

You need to pay a fee.

Your application will be "examined" and if it satisfies the tests of a patentable invention, you will be granted a patent.

The Indian pharmaceutical industry is the world's 3rd largest by volume and 14th largest in terms of value. Major Segments of Pharmaceutical Industry are Generic drugs, OTC Medicines and API/Bulk Drugs, Vaccines, Contract Research & Manufacturing, Biosimilars & Biologics. India has the second-highest number of US FDA approved plants outside the US and is a global leader in the supply of DPT, BCG, and Measles vaccines. India accounts for 60% of global vaccine production, contributing 40-70% of the WHO demand for Diphtheria, Tetanus and Pertussis and Bacillus Calmette-Guérin vaccines, and 90% of the WHO demand for the measles vaccine. India is the largest provider of generic drugs globally. Access to affordable HIV treatment from India is one of the greatest success stories in medicine. The participants were given a general idea about the instruments by visiting the laboratories of the college. This included microbiology, biochemistry, and chemistry labs. The session was progressed by exhibiting the techniques used in a microbiology lab which included basic tests for calibration, enumeration, and sensitivity and advanced tests like PCR and chromatography. During the lab visit, the participants were demonstrated the protocol of dressing and the importance of wearing the required attire which included cap, gown, shoe covers, and hand gloves. The hazards and problems associated with not following these protocols were also discussed. The laminar air flow containing HEPA filters were also shown and the importance of having an aseptic condition in microbiology was discussed. The other instruments were autoclave, hot air oven, incubator, ultrasonicate, pH meter, colorimeter, spectrophotometer, and other glassware.

After the instrumentation session, the participants were exposed to the techniques used in microbial identification. This included various media used in the lab along with other conditions that need to be maintained in order to promote the growth of microbes.

The day was concluded by a mock drill of the SOPs followed in a microbiology lab in pharma and the students actively participated in it.

The third day of the workshop was conducted in the Bhausaheb Godbole Sabhagruh of Shankarlal Khandelwal College, Akola). The president of the event was Shri. Gopalji Khandelwal (Secretary, Shikshan Prasarak Mandal, Akola) and the guests of honor were Adv. M.G. Mohta (President, The B.G.E. Society, Akola), Shri. P.N Maheshwari (Hon. Secretary, The B.G.E Society, Akola), Shri. A.Y. Kulkarni (Vice-president and Treasurer, Shikshan

Prasarak Mandal, Akola), Dr. Anil Fokmare (Director, Global Institute for Self-Motivation), Dr. V.D. Nanoty (Principal, Shri. R.L.T College of Science, Akola), and Dr. J.M. Saboo (Principal, Shankarlal Khandelwal College, Akola).

The first session was started with feedbacks from the participants about the overall workshop of the initial two days. The participants expressed pleasure and gratitude that both the societies and colleges conducted such an informative workshop. Most students accepted that they were worried that a 7-hour workshop every day would be monotonous and involve lots of reading and self-study, but they were happy that the course was informative, well-structured, engaging, and easy to understand. Many participants appreciated Dr. Anil Fokmare for being very enthusiastic and keeping them captivated with his activities. They also shared that the assignments and projects given to them were benefitting and promoted deeper understanding of the subject.

The highlight of this day was a 'Book launching event' of 3 Practical handbooks—i) Applied microbiology and biotechnology, ii) Environmental microbiology and biodiversity, and iii) Immunology and medical microbiology. These books have been authored and edited by the microbiology teachers of Sant Gadge Baba Amravati University, Amravati and published by My Rays Book Publication Center founded by Mr. Rajesh Dhakane and powered by International journal of microbial science.

The workshop was continued after the feedback session and book launch event. This day of the workshop focused on Good Documentation Practices (GDP) in pharma sector. Dr. Fokmare explained that to ensure smooth functioning of any industry, it is important to follow the guidelines mentioned for the documentation of every action. Documentation is an authenticated proof for GMP compliance and is a crucial part of the quality assurance system. Before documenting, the processes are validated, instruments are calibrated, staff is trained to maintain protocols, and SOPs are established. The documentation is examined during routine and annual audits and any problems in the documentation could lead to termination of the batch of products or cancelation of licenses. These were discussed in the workshop.

The workshop ended with a mock interview session to build confidence in the participants. The students were interviewed and were provided constructive feedbacks on their performance. They were also conveyed if they would be selected or not on the basis of the interview. The day was filled with hands on training and interview demonstration and the participants benefitted from it.

CRITERION III: RESEARCH, INNOVATIONS AND EXTENSION

The last 3 days of the workshop was conducted online using the Google Meet platform. The participants were asked to keep the camera on to ensure complete attention. These days emphasized on providing the students with information regarding the process of GDP and GMP compliance and the systems of auditing. Dr. Fokmare focused on the importance of document compliance and errors that occur during the same. He explained how 'root cause analysis' is done after finding the errors. The 'corrective action preventive plan' was also discussed by giving some examples from the industry. The Code of federal regulation (CFR) was explained along with its standards. Data integrity is simply the maintenance, assurance, accuracy and consistency of data and is of utmost importance. It can lead to many repercussions if not dealt with care. It aims to prevent any unwanted and unintended changes to information.

The one-week workshop was successfully conducted by the combined efforts of all participants, resource person, teaching and non-teaching staff of Shri. R.L.T College of Science and Shankarlal Khandelwal College, Akola, and the Berar General Education Society and Shikshan Prasarak Mandal, Akola.

The poster is for an inauguration event. At the top, it says 'Invitation Inaugural Function of One Week Certificate Course on "Skill Development for Pharmaceutical Industry" (9th May to 15th May 2022)'. Below this, it lists the organizing institutions: Department of Microbiology, Shri R.L.T. College of Science, Akola; Department of Microbiology, Shankarlal Khandelwal College, Akola; and Global Institute for Self-Motivation. The event is held 'IN THE GRACIOUS PRESENCE OF' four dignitaries: Adh. M.G. Mohra (President, The B.G.E. Society, Akola), Shri. P.N. Maheshwari (Hon. Secretary, The B.G.E. Society, Akola), Prof. R.D. Chaware (Vice President, Shikshan Prasarak Mandal Akola), and Shri A.Y. Kulkarni (Vice President & Treasurer, Shikshan Prasarak Mandal Akola). The Resource Person is Dr. Anil Fokmare from Global Institute for self-Motivation. The event is presided over by two principals: Dr. V.D. Naotiy (Principal, Shri R.L.T. College of Science, Akola) and Dr. J.M. Saboo (Principal, Shankarlal Khandelwal College, Akola). The inauguration session is on 9th May 2022 at 10:00 AM in the Auditorium, Shri R.L.T.
