

Shri R.L.T. College of Science, Akola

Department of Chemistry

Educational Study Tour Report (2022-23)

In order to inculcate scientific temperament among the students, chemistry department organised education visit to department of Soil Science and Agricultural Chemistry, Dr Punjabrao Deshmukh krishi Vidyapeeth, Akola for BSc II students on Wednesday, 24-11-22. Before departure Hon'ble Principal Dr. V. D. Nanoty addressed to student participants and advised to maintain the discipline throughout the visit at chemistry department. We reached to university department at 11.00 am and our visit started with soil physics unit and then micronutrient unit of soil science and agriculture chemistry department. Dr Ashok Aage, Associate Professor, as well as Co-ordinator of educational visit gave brief status report of Soil Science and Agricultural Chemistry and explained about the determination of moisture of soil samples and soil analysis. He also showed glimpses of research in that division and kind of instrumentation facilities available and scope of research for students. In all 45 chemistry students along with 3 teaching staff and 2 non-teaching staff member were participated in the tour. This visit would be a fruitful for exploring basic chemistry knowledge to applied chemistry streams like soil science and agrochemistry such views expressed by students.

After a laboratory visits students had taken lunch in the university canteen and expressed thanks for this fruitful visit.

This educational visit was organised by **Dr. Pravin R. Kawle**, Asst. Professor, Department of Chemistry, with Ms. Priyanka Kahar and Ms. Yamini Patke Madam and under the guidance of Dr. **V. D. Nanoty**, Principal, Shri R.L. T. college of Science, Akola.

All the students expressed gratefulness to our respected Principal Dr. V. D. Nanoty sir for giving permission to organize the educational visit.
