Best Practices of Session :2023-24

Best Practice – 1

Title of the Practice:

E-Calendar publication on Theme “Innovations in the Field of Computer Science and Information Technology”

Objectives of the Practice:

- To percolate the innovative knowledge in the Field of Computer Science & Information Technology (IT) among students and society.
- To inculcate scientific temperament among students.
- To develop student’s interest and involvements in participatory learning.

The Context:

In today’s rapidly evolving digital landscape, computer science education (CSE) has become increasingly essential for preparing individuals to thrive in the modern world. From powering technological advancements in driving innovation across industries, computer science plays a pivotal role in shaping the future of society, economy and technology. In addition to drive innovation and economic growth, computer science has the potential to address some of the most pressing challenges facing society today. From combating climate change and improving healthcare outcomes to promote social justice and equality, technology can be a powerful force for positive change.

Reviving innovations in the field of Computer Sector through such activities and initiatives requires the involvement of students to motivate research and develop their interest in the subject as well as enhance their skills in the field of computer science and IT. By instilling computational thinking and problem-solving skills in students for real-world challenges, computer science education empowers them to make a difference and contribute to creating a better world.

The Practice:

- This is an annual practice of M.Sc. (Computer Science) students under the guidance of Prof. Ram B. Ghayalkar, Assistant Professor & Head, Department Computer Science.
- The purpose behind performing this project was explained to the students.
- Students were divided into 12 groups and each group was given a different topic to collect information.
- Students collected information on related themes like scientist information, innovation in Computer Science and IT field etc.
- Pages of the calendar were designed by the students under guidance of supervisor.

- For preparation of Calendar for the year 2024, information regarding the microprocessor, Programming languages, Touchscreens, Internet of things (IoT), Databases, the internet, Artificial intelligence (AI), Cloud computing, Smartphones, Robotics, First Computer mouse and Quantum computing was collected and arranged in the month of January, February, March, April, May, June, July, August, September, October, November and December respectively.
- Along with above information about innovations in Computer Science and IT field, full and no moon days which is having special importance in astronomical field, are mentioned. Also, academic holidays which is useful to find working and non-working days are mentioned in the calendar.
- The e-copy of calendar was displayed on college website. Also, it was circulated among the students and society.

Photographic Evidences

Inauguration of Softcopy of the calendar by Principal Dr. V. D. Nanoty and release on college website.

Shri R. L. T. College of Science Akola (MS)

P G Department of Computer Science Published Department Calendar 2024 (Session 2023-24)

Department of Computer Science of Shri R.L. T. College of Science Akola (MS) has published department calendar on Scientist from Computer Science & IT fields in softcopy as well as hardcopy on dated 01-01-2024. Softcopy in pdf of the calendar inaugurated by Principal Dr. V. D. Nanoty in group and college website.

Students of M.Sc. design and collected information of the scientist and full & no moon days with holidays under the guidance of Prof. Ram B. Ghayalkar, Assistant Professor & Head of Computer Science department.

Department of Computer Science & IT has published department calendar 2024 on the theme Innovations in the Field of Computer Science & IT

Department of Computer Science & IT

THE MICROPROCESSOR

The invention of the microprocessor by Intel's Ted Hoff, Federico Faggin, and Stanley Mazor marked the beginning of a computing revolution. This small chip, which integrated all the functions of a central processing unit onto a single piece of silicon, paved the way for the development of personal computers, laptops, and mobile devices.

NOTE :

Programming Languages (1950s – Present)

The creation of programming languages like Fortran, C, Java, and Python simplified the process of writing software. These languages allow programmers to express complex ideas in a way that computers could understand, making software development accessible to a broader audience.

Internet of Things (IoT)

Another one of the latest trends in Information Technology is the Internet of Things. In simple terms, the internet of Things refers to physical objects or devices being connected to each other over the internet. It is a network of objects that has found its use in many industries. One example of IoT is the various devices used at home. From the lights and blinds to the alarm system and temperature control system.

Doors can be locked now right from the bed and one can also track their steps and calories burnt through a smartwatch. IoT's future is exciting and makes for efficient decision-making for organizations.

Note : _____

Artificial Intelligence (1950s – Present)

Modern Artificial intelligence (AI) has its origins in the 1950s when scientists like Alan Turing and Marvin Minsky began to explore the idea of creating machines that could think and learn like humans. The field of artificial intelligence has produced numerous innovations, from early rule-based systems to modern machine-learning algorithms. AI is now integrated into various aspects of our lives, from voice assistants to self-driving cars and recommendation systems.

First Computer Mouse – 1964

The computer mouse was invented by Douglas Engelbart with the assistance of Bill English and was patented on 17th November 1970. It was just a tiny piece of a much larger project aimed at augmenting human intellect.

Engelbart wanted to develop a system that could interact with the information displayed on the screen.

Quantum Computing is a new technology that is still developing but nonetheless exciting. It is a form of computing that uses the law of quantum mechanics to help solve problems that otherwise cannot be handled by a normal computer.

In recent times, Quantum Computing has been used in determining the spread of coronavirus and finding out vaccines. Alternatively, Quantum Computing also finds use in banking and finance. Organizations use this technology to detect fraud and calculate risk.

Bhaubej	Sunday, 03 November 2024
Guru Nanak Jayanti	Friday, 15 November 2024
Christmas Day	Wednesday, 25th December, 2024

Evidences of Success:

- This user-friendly digital calendar provides the flexibility to check on any device, like smartphones, tablets or computers.
- This attractive educational calendar is more preferred by students and users than traditional printed calendars or digital calendars in phones.
- Users can swiftly check full and no moon days as well as academic holidays on a click

Resources required:

- Basic Computer literacy
- Enthusiastic students to collect information and design calendar
- Proper knowledge about events and days to be added in calendar templates

Problems Encountered:

- As students do not have access to computer facilities at home, students and supervisor had to stay longer on working days to design the calendar.

Best Practice - 2

Title of the practice:

Introducing Sports as an enabler for an inclusive and fit society

Objectives of the Practice:

- To Raise awareness about the significance of sports and being physically active in daily life.
- To Promote sports and physical fitness through events and activities.
- To Recognize and honour the student athletes.

The Context:

Activities relating to sports and physical education are essential components of human resource development, helping to promote good health, comradeship and a spirit of friendly competition, which, in turn, has a positive impact on the overall development of the personality of the youth. India celebrates National Sports Day every year on August 29, which is a special occasion dedicated to marking the spirit of sports in India. Apart from India's achievements in sports, this day emphasizes the importance of sports to keep us healthy and active. This day is celebrated to mark the contribution of India's legendary hockey player Major Dhyan Chand, who helped India dominate in the hockey games inspiring generations. The National Sports Day is more than just a celebration and a reminder of how sports enrich our lives and bring us closer as a community. Hence, Department of Physical Education and Sports decided to organize a week-long program of sports activities from 23 to 29 August 2023.

The Practice:

- Dr. R.D. Chandrawanshi, Director of Physical education and Sports, conveyed a motivating message to the students, emphasizing the importance of sports and physical activities in their daily routine.
- Principal Dr. V. D. Nanoty inaugurated the program, and in his opening speech, he explained the importance of sports for the physical and mental well-being of young people.
- Students and faculty members took the Fit-India Pledge, committing to lead healthy and active lives.
- During a complete sport week, various sports and athletic activities were organized, including badminton, Chess, table tennis, Running, Suryanamskar and Skipping Rope etc. With great team spirit and enthusiasm, the students exhibited their sportsmanship by participating in all the events organized by the Event Coordinator and sports committee members.
- The closing ceremony of the event took place on National Sports Day 29th August 2023.

Winners of the various events were awarded medals and certificates to recognize their achievements. Following table shows the result of event.

Result Sheet

Sr. No.	Event	Student Name	Class	Rank
1	Badminton (23/08/2023) Men	Sourabh Gaikwad	M.Sc. I	I
		Arjun Tayade	B.Sc. II	II
		Kalesh Waghmare	B.Sc. III	III
2	Chess (23/08/2023) Men	Shlok Deshpande	B.Sc. III	I
		Sachin Sabale	B.Sc. I	II
		Aditya Umbarkar	B.Sc. I	III
3	Chess (23/08/2023) Women	Perna Tayade	B.Sc. I	I
		Gouri Chande	B.Sc. III	II
		Mehera Patil	B.Sc. I	III
4	Badminton (24/08/2023) Women	Aakanksha Karale	B.Sc. II	I
		Nandini Katre	B.Sc. I	II
		Pragati Labade	B.Sc. II	III
5	Table Tennis (25/08/2023) Men	Sahil Ashkan	B.Sc. II	I
		Vishal Sulkar	B.Sc. I	II
		Kuldip Ahirkar	B.Sc. III	III
6	Table Tennis (25/08/2023) Women	Falguni Saitwal	B.Sc. II	I
		Vidhi Pathak	B.Sc. II	II
		Pradnya Belokar	B.Sc. II	III
7	100 Mts. Running (26/08/2023) Men	Aditya Damodar	B.Sc. I	I
		Shubham Tale	B. Sc. I	II
		Om Nawale	B. Sc. III	III
8	100 Mts. Running (26/08/2023) Women	Sayali Mehare	B.Sc. III	I
		Perna Bhojane	B.Sc. II	II
		Sakshi Metange	B.Sc. III	III
9	400 Mts. Running (26/08/2023) Men	Shubham Tale	B.Sc. I	I
		Dewant Shende	B.Sc. II	II
		Aditya Damodar	B.Sc. I	III
10	400 Mts. Running (26/08/2023) Women	Prerana Bhojane	B.Sc. II	I
		Sayali Mehare	B.Sc. III	II
		Sakshi Metange	B.Sc. III	III
11	1500 Mts. Running (26/08/2023) Men	Arjun Tayade	B.Sc. II	I
		Shubham Tale	B.Sc. I	II
		Dewant Shende	B.Sc. II	III

Sr. No.	Event	Student Name	Class	Rank
12	Suryanamskar (28/08/2023) Men	Rajesh Mahapatra	B.Sc. III	I
		Lokesh Sonone	B.Sc. I	II
		Dewant Shende	B.Sc. II	III
13	Suryanamskar (28/08/2023) Women	Dhanashree Ingle	B.Sc. III	I
		Mehara Patil	B.Sc. I	II
		Sayali Mehare	B.Sc. III	III
14	Skipping Rope (28/08/2023) Men	Kalesh Waghmare	B.Sc. III	I
		Lokesh Sonone	B.Sc. I	II
		Dewant Shende	B.Sc. II	III
15	Skipping Rope (28/08/2023) Girls	Sayali Mehare	B.Sc. III	I
		Yashika Pranjale	B.Sc. I	II
		Divya Pande	B.Sc. I	III

Evidence of Success:

- Students were encouraged to embrace physical fitness, regular exercise and a healthy lifestyle in addition to their academic pursuits.
- This activity also proved to be helpful for creating a sense of unity as well as foster social harmony and discipline among the participants.

Resources required:

- Motivating and experienced Event Coordinator, sports committee members and devoted participants.
- Indoor and outdoor facilities to conduct the event.

Problems Encountered:

- Being science college, students have some mental pressure to prioritize academics over sports.
- Insufficient playground for conduction of outdoor games.
